Mantis Contour One

Localised adiposities
Cellulite
Body skin tightening

A real alternative to liposuction.

Finally, the world's safest and most effective
Ultrasonic Medical System has arrived in Italy.
Chosen by the best plastic surgeons, it has now been
certified for use in the professional beauty sector.

An extraordinarily effective method with guaranteed results, which
had previously been unthinkable, uses the combined action of a
dual ultrasonic HF/LF plate and an innovative Vacuum system.

over **1.500.000**
satisfied patients
worldwide!

A unique technology now available for the professional beauty sector

MC1, the device with variable frequency defocused ultrasonic double-emitter technology.

A patented system that reduces and destroys adipose cells without any effect on the skin or surrounding tissues.

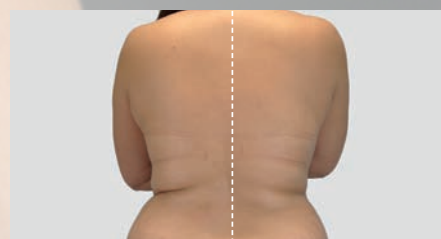

The exclusive **biocompatible elastomeric membrane Vacuum System** facilitates the opening of the lymphatic ganglia and allows drainage of triglycerides and toxins.

What is MC1?

It is the safest and most effective system in the world in the non-invasive treatment of localised adiposities chosen by the best plastic surgeons.

How it works

- It is a treatment that combines ultrasound and lymph drainage.
- It reshapes the body silhouette.
- Ideal for both female or male treatment.
- Six to ten treatments are required for a complete cycle. The results are visible from the first session, by ecograph-proof.
- Treatment is comfortable, painless and does not require anesthesia.

ULTRASONIC HANDPIECE

Following the opening of the lymphatic ganglia, treatment with the ultrasonic handpiece begins.

A program is selected based on the area to be treated.

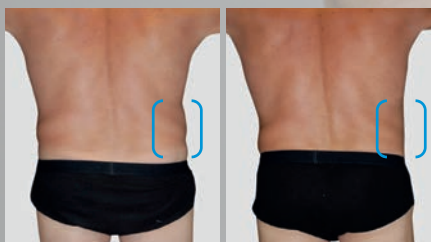

Ultrasound reduce the volume of adipose cells by raising the pressure in the interstitial spaces and initiating a metabolic process that leads to the natural elimination of fat by the body.

Treatment ends with drainage towards the lymphatic ganglia previously opened with the special handpiece.

The best plastic surgeons around the world are excited about the results

Dr Paul Vanek
Plastic Surgeon,
Biochemist and Researcher
Cleveland, Ohio

"Patients see the results immediately and are very happy. After five weeks, they show significant improvement, which can be photographed and measured. Patients love this technology for the immediacy of its results."

www.paulvanekmd.com

Dr Gabriele Muti
Plastic Surgeon
Milan

"I'm excited about MC1. After the first session, my first patient while getting dressed, was surprised that her skirt was 'accommodating on her hips'. It is truly a positive experience for a doctor and patient."

www.skinhouse.it

Dr Giulio Basoccu
Plastic Surgeon
Rome

"MC1: when the result of a device leave even the most skeptical like me in awe, it means that it works. As for me, it was a great choice!"

www.studiomedicobasoccu.it

Dr Marie N. Di Lauro
Dermatologist
Worthington, Ohio

"I'm excited about my purchase! My patients are seeing consistent and predictable results with a pleasant treatment experience!"

www.drtilauro.com

Dr Jeffry B. Schafer, MD
Plastic Surgeon
San Diego

"The request for non-invasive treatments and body shaping has grown enormously in recent years MC1 is effective for men and women who want to improve specific problem areas but don't want or need liposuction."

www.jeffryschafer.com

Dr Tahl Humes
Owner of VITAH L
Medical Aesthetics
Denver, Colorado

"We are seeing great results that have exceeded our expectations. Most of our patients come back with their friends because they are satisfied with the results."
